IMPORTANT INFORMATION
FOR WINTER DRIVING

Note: unless otherwise noted, our vehicles are fitted with standard tyres.

To meet the legal requirements of some countries over the winter months (mid October - mid April) you may need a vehicle with special tyres and/or snow chains.

Please ensure you are aware of these laws before you plan your route:

http://www.theaa.com/motoring_advice/overseas/snow-chains-winter-tyres.html

FROM WINTER 2013 - special tyres are mandatory on Italian roads north of Arezzo & ALL German roads during the winter months.

Peugeot has just one vehicle the 2008 with Grip Control technology (a special patented control system that improves traction on snow, mud and sand - meaning better control and safety of the vehicle and it's passengers as long as you travel at less than 80kms/hour).

Note: you must also purchase chains (in Europe – at your own cost, from a Peugeot garage or supermarket in or near countries where chains are used regularly), for additional traction when the road conditions are particularly severe.
